Contents

- 1) Introduction
- 2) Gas Transportation Charges –Methodology and Principles
- 3) Ancillary Services and Charges
- 4) Last Mile Gas Contact Details

Introduction

Last Mile Gas is the trading name of Last Mile Gas Ltd a licensed Independent Gas Transporter (IGT). Last Mile Gas Ltd owns and operates local gas transportation networks throughout the United Kingdom. This statement describes the principles and methodology used to calculate gas transportation arrangements for use of Last Mile Gas Ltd's pipelines.

Last Mile Gas Ltd has an obligation under its Gas Transporters License to prepare a statement setting out the methodology employed to determine charges for Gas Transportation arrangements as defined by Standard Licence Condition 4.

This statement also publishes the Last Mile Gas Ltd's charges for ancillary services. Whilst Last Mile Gas Ltd is not obliged to publish these along with our transportation charges, they have been included in this document to provide illustrative costs for carrying out additional ancillary services.

This statement applies to charges from the Statement effective date, until superseded by any future statement.

Gas Transportation Charges –Methodology and Principles

Last Mile Gas Ltd's charges for gas transportation are governed by a Relative Price Control (RPC) as per the Special Licence Condition 1 of our Gas Transporters Licence. RPC requires that IGT charges to all new customers should be capped at a level broadly consistent with the host gas transporters equivalent charge.

Last Mile Gas employs the methodology as set out by OFGEM in determining the maximum charge that can be made under this RPC.

This methodology and its application can be found on the OFGEM web site by using the following Links:-

http://www.ofgem.gov.uk/Networks/GasDistr/IGTReg/Documents1/3946-Decisiondoc_IGT_Final_Proposals.pdf

<http://www.ofgem.gov.uk/Networks/GasDistr/IGTReg/Documents1/10068-RPCguidance.pdf>

Ancillary Services and Charges

The following charges are not regulated under Last Mile Gas Ltd's Gas Transporters License and as such are not subject to OFGEM approval.

Must Reads

If a Registered User is unable to provide meter readings in compliance with Section E of the IGT UNC, then Last Mile Gas Ltd will initiate a process to obtain a meter read, referred to as a 'Must Read'. A charge of £45 will be made for each must read, based on the typical cost of such reads which includes multiple visits to the site and obtaining and executing a warrant.

Isolations or Other Emergency Works

Where Last Mile Gas Ltd is requested to provide isolation or any other form of emergency works, we will charge on a time and materials basis, with a view of recovering the actual cost incurred in carrying out the works.

Metering Activities

Meter provision will be via an approved registered Service Provider and will be charged out at the rates published in the most recent Last Mile Gas Metering Charges Statement. These charges will be on the basis of an annual operational lease designed to recover provision and maintenance costs.
